Sri Manakula Vineyagar Engineering College
CGPA-8.76

2018 – 2019
Puducherry, India

HSC (State Board)

Vivekanandha Higher Secondary School
Percentage-68.18%

2016 – 2017
Puducherry, India

SSLC(State Board)

Vivekanandha Higher Secondary School
Percentage-89.4%

TECHNICAL SKILLS

- HTML AND CSS
- Javascript
- Bootstrap
- ReactJs
- Nodejs
- MongoDB
- UI/UX Design(Figma)
- Python
- Django

PROJECTS

Cab Booking Service

Developed the frontend of a cab booking service using **React.js**, focusing on creating a user-friendly and responsive interface. Implemented key features such as ride selection, fare estimation, and booking confirmation using React components. Utilized **React Router** for seamless navigation and managed state efficiently to handle user interactions. Ensured a smooth and interactive user experience through well-structured UI design.

HUL sites Projects

Ensured the safety of every employee on site by developing a use case for detecting personnel and helmet usage.

Tissue Cell Image Classification and Segmentation using RCNN

In this work, a Computer Aided Diagnosis (CAD) sputum cytology image analysis system, which classify the tissues as benign or malignant for the given Lung glandular tissues was proposed.

AUDIO AND VIDEO DEEPFAKE DETECTION

This is deep learning based project in which we detect the deepfake audio and video, which uses LSTM and Resnet.

E-commerce-Website

Built a full-stack e-commerce app using **MongoDB, Express.js, React.js, and Node.js**. Features include **user authentication, product listing, shopping cart, checkout**, and an **admin panel** for managing products and orders.

CERTIFICATIONS

- Programming with Python-Internshala
- Web Developer Bootcamp with Flask and Python in 2023-Udemy
- Python and Django for beginners-Udemy
